² For further details on the FactSet Overlay Retirement dates, please go to <https://support.factset.com/>

³ Most components within the FactSet Workstation already support high DPI settings commonly used with modern high resolution monitors. All remaining FactSet Workstation components are in the process of being updated to offer this support. Until that process is complete, certain client workflows require standard (96 DPI) resolution setting.

⁴ FactSet Office Integration requires the Microsoft Office Primary Interop Assemblies (PIA) for Office version [2010](#)

⁵ FactSet =FDSLIVE codes within Excel 2016 requires installing [Microsoft Hotfix KB3114374](#) for Office 2016 MSI installations (N/A for Click-to-Run)

⁶ FactSet Adobe Acrobat/Reader plug-in functionality requires Protected Mode be disabled in Adobe Reader version 10, 11, and DC

⁷ FactSet recommends Office 365 (Semi-Annual)

⁸ Office 365 or Office 2019 running on Windows 10 (1709 or lower) requires **Optimize for compatibility** to be enabled in all Microsoft Office Apps (Excel, Word, PowerPoint, and Outlook) via **File > Options > General** under the **User Interface options** section

EA is Early Adopter Release. **GR** is General Release.
